HW7 - Open Hashing

Ronan Wallace

May 2019

1) Open Hashing

Insert elements into open hash table (see pictures below)

Figure 1: Insert 50 at index 6 (forgot to include 92 initially, will be inserted at the end!).

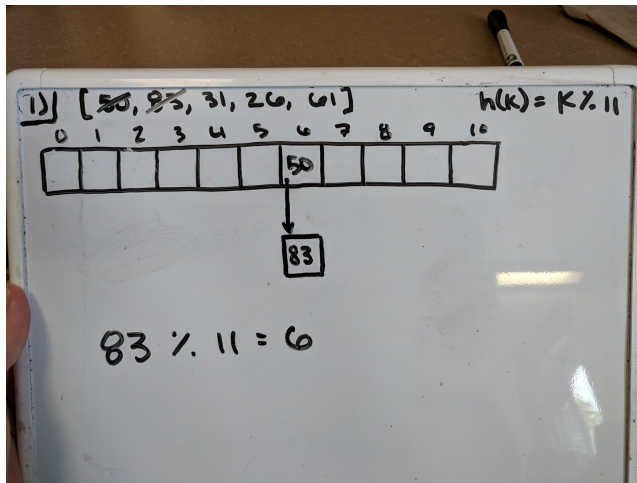

Figure 2: Insert 83 at index 6. Create linked list to avoid collision.

Figure 3: Insert 31 at index 9.

Figure 4: Insert 26 at index 4.

Figure 5: Insert 61 at index 6. Add to linked list to avoid collisions.

Figure 6: Insert 92 at index 4. Create linked list to avoid collisions.
